

## CAST AWAY

Kelly: I'm awake. I saw your taxi drive up. Get in here out of the rain.

Chuck: I saw you down at the hub today so I know you were down there.

They hug.

Kelly: Let me get you a towel. Come in. Their sleeping. If you come in I'll make you some coffee.

Chuck: This is a nice house.

Kelly: yeah we got a nice morgage too.

Chuck: What's your daughters name.

Kelly: katie.

Chuck: Katie. She's a beautiful little girl.

Kelly: She's a handful.

long silence.

Chuck: Just let me get one thing straight here. We have a pro football team now but their in nashville.

Kelly: (laughs) Uhm yeah. Oh my god, okay, they used to be in Houstoin, they were to oilers, now their the titans.

Chuck: Houston oilers are the tennessee titans.

Kelly: Yeah. That's not all. We went to the superbowl last year.

Chuck: And I missed that.

Kelly: Oh you would have died. We almost won by one yard, one lousy yard right at the end. I got whole milk, two percent, and non fat. I don;t' have any half and half I know that's what you like.

Chuck: That's all right. What ever happened to you becomming a proffessor, you not Dr. Kelly Friers Lovett?

Kelly: When you -um, when you're plane went down everything jsut went sort of on hold. I think about taking it up again though.

Chuck: I came out here to give you this.

Gives here watch.

Kelly: Oh my god.

Chuck: I'm sorry it doesn't work. And I uh, I kept the picture. It was all faded anyway.

Kelly: I want you to have it I gave it to you.

Chuck: No its a family heirloom and it should stay in your family.

Chuck goes into den.

Kelly: That's everything I have from when you went down to now. They said they never figured out what caused the crash. Probably some mislabeled hazerdous material caught fire. So here's where that ship found you. And you drifted about five hundered miles, this is where your island was. About 600 miles south of the cook islands. And these are the search grids. Ships went back and forth for weeks looking for you.

Chuck: I never should have gotten on that plane. I never should have gotten out of the car.

Kelly; I want to show you something, commere.

Chuck: This, this is our car. You kept our car. Alright, now this is weird. This is a good car. We had a lot of memories in this car.

Kelly: Two very nice memorries.

Chuck: Oh that trip down to the gulf. Can I drive it?

Kelly: It's your car.

Chuck: That's good cause my taxi is gone.

Kelly: Do you mind if I get some stuff out of the back?

Chuck: Think your going to have more kids.

Kelly: I don't know. Its kind of confusing right now.

Chuck: You should, with Rick I mean you should. I would.

Kelly: So what now.

Chuck: I don't know, I really don't know.

Kelly: You said you'd be right back.

Chuck: I'm so sorry.

Kelly: Me too.

They embrace.

Chuck drives away.

Kelly: Chuck! CHuCK!! (she runs after the car, he gets out)

They embrace (hardcore)

Kelly: I always knew you were alive, I knew it. But Every said I had to stop saying that that I had to let you go. I love you. You're the love of my life.

Chuck: I love you too kelly, more than you'll ever know.

They get in the car.

Kelly: Chuck.

Chuck: You have to go back.

She leaves.
